Safety Data Sheet (SDS)

	<i></i>	,	<u> </u>	
Revision Number: 3.0			Last updated	March 24, 2021
1. Product and Company Iden	<u>itification</u>			
Product Name:	DABCYL F	lus TM acid, SE;	DABCYL Plus tm	acid, NHS ester
Manufacturer/Supplier:	AnaSpec, Ir www.anasp 34801 Camp Fremont, Ca Tel: 510-79 Fax: 510-79 Email: servi	ec.com ous Drive A 94555 1-9560	<u>1</u>	
Catalog Number	AS-81804			
Unit Size	25mg			

2. Hazards Identification

Emergency Overview: We do recommend handling all chemicals with caution. Use proper protective equipment when handling chemicals. To our knowledge, the hazards of this material have not been thoroughly investigated.

GHS Hazard Classification: N/A GHS Physical Hazards: N/A

GHS Health and Environmental Hazards: N/A

GHS Signal Words: None

GHS Hazard Statements: H302,H312, Harmful if swallowed or in contact with skin.

GHS Precautionary Statements: P302, H340 May be respiratory irritant if inhaled. May cause respiratory tract

irritation.

Potential Health Effects for:

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give

oxygen. Good hygiene practice requires that exposure be kept to a minimum and that suitable control

measures be used in an occupational setting.

Ingestion: If swallowed, wash out mouth with water provided person is conscious. Call a physician.

Skin: In case of contact, immediately wash skin with soap and copious amount of water.

Eyes: In case of contact, immediately flush eyes with copious amounts of water for at least 15 minutes.

Chronic Exposures: No information available. We recommend limiting prolonged exposure.

Target Organs: No information available

3. Composition

Ingredients/Components:

Chemical Name: DABCYL Plus™ acid, SE; DABCYL Plus™ acid, NHS ester

Molecular Formula: N/A Molecular weight: 474.5

CAS-No N/A EC-No N/A

4. First Aid Measures

Inhalation:	If dust is inhaled, remove from contaminated area.		
	Encourage patient to blow nose to ensure clear passage of breathing.		
	If irritation or discomfort persists seek medical attention.		
Ingestion:	If swallowed do NOT induce vomiting.		
	If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration.		
	Observe the patient carefully.		
	Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably		
	drink.		
	Seek medical advice.		
Skin:	If skin or hair contact occurs:		
	Flush skin and hair with running water (and soap if available).		
	Seek medical attention in event of irritation.		
Eyes:	If this product comes in contact with the eyes:		
	Wash out immediately with fresh running water.		
	Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.		
	If pain persists or recurs seek medical attention.		

Extinguishing media:		Water spray or fog.
Extinguishing media.		Alcohol resistant foam.
		Dry chemical powder.
		BCF (where regulations permit).
		Carbon dioxide
Special firefighting procedures:		Alert Emergency Responders and tell them location and nature of hazard.
		Wear breathing apparatus plus protective gloves.
		Prevent, by any means available, spillage from entering drains or water course.
		Use water delivered as a fine spray to control fire and cool adjacent area.
		DO NOT approach containers suspected to be hot.
		Cool fire exposed containers with water spray from a protected
		location.
		If safe to do so, remove containers from path of fire.
		Equipment should be thoroughly decontaminated after use.
11 10 1 1	. 1 1	Emits toxic fumes under fire conditions
Unusual fire and explos	sions nazaras:	Emits toxic rumes under fire conditions
A acidental Delega

8. Exposure Controls					
Engineering controls	even when particul mutual friction. Exhaust ventilation particulates in the If in spite of local respiratory protect (a): particle dust re (b): filter respirator (c): fresh-air hood Build-up of electrogrounding. Powder handling additional protection.	exhaust an adverse concentration of the substance in air could occur, tion should be considered. Such protection might consist of: espirators, if necessary, combined with an absorption cartridge; ors with absorption cartridge or canister of the right type; ls or masks ostatic charge on the dust particle, may be prevented by bonding and equipment such as dust collectors, dryers and mills may require ion measures such as explosion venting.			
		Air contaminants generated in the workplace possess varying "escape" velocities which, in turn, determine the "capture velocities" of fresh circulating air required to efficiently			
	remove the contaminant.				
PPE	Use personal prote	ective equipment			
9. Physical and Chem					
Physical State	solid				
Odour Solubility in Water	Not available				
Specific Gravity	DMF/DMSO Not evailable				
рН	Not available Not available				
Boiling Point	Not available Not available				
Melting Point	Not available Not available				
Flash Point	N/A				
Vapor Pressure:	N/A				
Vapor Density:	N/A				
10. Stability and Read	ctivity				
Thermal Decomposition		No data available			
Dangerous Products of Decomposition		No data available			
Dangerous Reactions		COx, NOx when burned			
Keep container tightly and kept upright. Store		wentilated place. Containers which are opened must be carefully resealed:			
11. Toxicological Info	ormation_				
RTECS Number		N/A			

Toxicity

No information available.

Health Hazards	Although ingestion is not thought to produce harmful		
	effects, the material may still be damaging to the		
	health of the individual following ingestion, especially		
	where pre-existing organ (e.g. liver, kidney)		
	damage is evident. In an occupational setting however,		
	ingestion of insignificant quantities is not thought to be		
	cause for concern.		
Potential Hazards	Not available		
Carcinogenicity:	No significant acute toxicological data identified		
OSHA Permissible Exposure Limit(PEL) Data	N/A		
ACGIH Threshold Limit Values (TLV)	N/A		

Reproductive Toxicity:

No information available

12. Ecological Information

No information available.

13. Disposal Considerations

All waste must be handled in accordance with local, state and federal regulations. Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

14. Transport Information

Hazard Class	N/A
Identification Number	N/A
Packing Group	N/A
Proper Shipping Name (DOT)	N/A

15. Regulatory Information

California Proposition 65: This product does not contain chemicals listed under Proposition 65.

US TSCA (Toxic Substance Control Act): N/A

US CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act: N/A

US SARA Title III (Superfund Amendments and Reauthorization Act: N/A

US Other: N/A

EC EINICS (European Inventory of Existing Commercial Chemical Substances) Number: N/A

EC Risk Statements: N/A

Other Country Regulations: N/A

16. Other Information

It is not intended for food, drug, household, agricultural or cosmetic use. A technically qualified

individual experienced in handling potentially hazardous chemicals must supervise its use. The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. Users should make independent decisions regarding completeness of the information based on all sources available. AnaSpec shall not be held liable for any damage resulting from handling or from contact with the above product.
