Safety Data Sheet (SDS)

Revision Number: <b>3.0</b>		Last updated 5 Augu	ıst 2019	
1. Product and Company Identification				
Product Name:	Substance I H - RPK PQ	P QQ FFG LM - NH2		
Manufacturer/Supplier:	Kaneka Eur Rue du Bois Tel. +32-4-3 Fax. +32-4-	ec.com pus Drive A 94555 1-9560 01-9572 ice@anaspec.com rogentec SA, s Saint Jean 5 4102 Seraing Belgium 3727400		
	Tel. +32-4-3			
Catalog Number	AS-24279;	AS-24280		
Relevant identified uses of the substance/preparation and uses advised against	For laborate	ory use only.		
Emergency information		act the regional Eurogentec representation in Kaneka Eurogentec S.A. directly (from 8 and	•	
2. Hazards Identification				
		dling all chemicals with caution. Use proper at the control of the caution of this material of the caution.		
	-	ance according to the GHS angerous substance according to the GHS		
GHS Signal Words: None				

GHS Hazard Statements: None

GHS Precautionary Statements: None

Potential Health Effects for:

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give

oxygen. Good hygiene practice requires that exposure be kept to a minimum and that suitable control

measures be used in an occupational setting.

Ingestion: If swallowed, wash out mouth with water provided person is conscious. Call a physician.

Skin: In case of contact, immediately wash skin with soap and copious amount of water.

Eyes: In case of contact, immediately flush eyes with copious amounts of water for at least 15 minutes.

Chronic Exposures: No information available. We recommend limiting prolonged exposure.

Target Organs: No information available

HMIS Classification

Health hazard: 0

Chronic Health Hazard: 0

Flammability: 0
Physical hazards: 0

NFPA Rating

Health hazard: 0

Fire: 0

Reactivity Hazard: 0

# 3. Composition

Ingredients/Components:

Chemical Name: Substance P

H - RPK PQQ FFG LM - NH2

Molecular formula: NA Molecular weight: 1347.7

CAS-No NA EC-No NA

## 4. First Aid Measures

Inhalation:	If dust is inhaled, remove from contaminated area.
muuullon.	·
	Encourage patient to blow nose to ensure clear passage of breathing.
	If irritation or discomfort persists seek medical attention.
Ingestion:	If swallowed do <b>NOT</b> induce vomiting.
	If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to
	maintain open airway and prevent aspiration.
	Observe the patient carefully.
	Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably
	drink.
	Seek medical advice.
Skin:	If skin or hair contact occurs:
	Flush skin and hair with running water (and soap if available).
	Seek medical attention in event of irritation.
Eyes:	If this product comes in contact with the eyes:
	Wash out immediately with fresh running water.
	Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the
	eyelids by occasionally lifting the upper and lower lids.
	If pain persists or recurs seek medical attention.

Unusual fire and explosion	us hazards:	Prevent, by any means available, spillage from entering drains or water course.  Use water delivered as a fine spray to control fire and cool adjacent area.  DO NOT approach containers suspected to be hot.  Cool fire exposed containers with water spray from a protected location. If safe to do so, remove containers from path of fire.  Equipment should be thoroughly decontaminated after use.
Unusual fire and explosion	ıs hazards:	Use water delivered as a fine spray to control fire and cool adjacent area.  DO NOT approach containers suspected to be hot.  Cool fire exposed containers with water spray from a protected location. If safe to do so, remove containers from path of fire.  Equipment should be thoroughly decontaminated after use.
Unusual fire and explosion	ns hazards:	DO NOT approach containers suspected to be hot.  Cool fire exposed containers with water spray from a protected location. If safe to do so, remove containers from path of fire.  Equipment should be thoroughly decontaminated after use.
Unusual fire and explosion	as hazards:	Cool fire exposed containers with water spray from a protected location. If safe to do so, remove containers from path of fire. Equipment should be thoroughly decontaminated after use.
Unusual fire and explosion	ns hazards:	If safe to do so, remove containers from path of fire.  Equipment should be thoroughly decontaminated after use.
Unusual fire and explosion	as hazards:	Equipment should be thoroughly decontaminated after use.
Unusual fire and explosion	ıs hazards:	Emits toxic fumes under fire conditions
6. Accidental Release Me	<u>easures</u>	
Spill response		ll ignition sources.
		all spills immediately.
		ntact with skin and eyes.
		ersonal contact by using protective equipment.  ean up procedures and avoid generating dust.
		suitable, labeled container for waste disposal
Containment		personal contact, including inhalation.
		ective clothing when risk of exposure occurs.
	Use in a w	vell-ventilated area.
	DO NOT enter confined spaces until atmosphere has been checked.	
		allow material to contact humans, exposed food or food utensils.
	Avoid contact with incompatible materials.	
	When handling, DO NOT eat, drink or smoke.  Keep containers securely sealed when not in use.	
	Avoid physical damage to containers.	
	Always wash hands with soap and water after handling.	
	Use good occupational work practice.	
		ntainers may contain residual dust which has the potential to accumulate
	_	settling. Such dusts may explode in the presence of an appropriate ignition
	source. Do NOT c	cut, drill, grind or weld such containers
PPE	Use person	nal protective equipment
7. Handling and Storage

**Toxicity** 

No information available.

Health Hazards	Although ingestion is not thought to produce harmful
	effects, the material may still be damaging to the
	health of the individual following ingestion, especially
	where pre-existing organ (e.g. liver, kidney)
	damage is evident. In an occupational setting however,
	ingestion of insignificant quantities is not thought to be
	cause for concern.
Potential Hazards	Not available
Carcinogenicity:	No significant acute toxicological data identified
OSHA Permissible Exposure Limit(PEL) Data	N/A
ACGIH Threshold Limit Values (TLV)	N/A
(12)	- "

Reproductive Toxicity:

No information available

### 12. Ecological Information

No information available.

### 13. Disposal Considerations

All waste must be handled in accordance with local, state and federal regulations. Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

### 14. Transport Information

-	
Hazard Class	N/A
Identification Number	N/A
Packing Group	N/A
Proper Shipping Name (DOT)	N/A

#### 15. Regulatory Information

California Proposition 65: N/A

US TSCA (Toxic Substance Control Act): N/A

US CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act: N/A

US SARA Title III (Superfund Amendments and Reauthorization Act: N/A

US Other: N/A

EC EINICS (European Inventory of Existing Commercial Chemical Substances) Number: N/A

EC Risk Statements: N/A

Other Country Regulations: N/A

#### 16. Other Information

It is not intended for food, drug, household, agricultural or cosmetic use. A technically qualified individual experienced in handling potentially hazardous chemicals must supervise its use. The above information is believed

to be correct but does not purport to be all inclusive and shall be used only as a guide. Users should make independent decisions regarding completeness of the information based on all sources available. AnaSpec shall not be held liable for any damage resulting from handling or from contact with the above product.
